

Montana Council
100 Degree of Frost Information

1. Any Scout, Varsity Scout Or Adult Scouter may qualify for this Award.
2. One hundred degrees of frost are required to earn this award in a given period. One night out, with a low temperature of 10° Fahrenheit, will net each camper with 22 degrees of frost. (32 degrees of freezing temperature minus 10 degrees equals 22 degrees frost.) This will apply for only the boys and adults camping, not the troop or patrol as a whole.
3. The official weather bureau station nearest the campsite will determine the degree of temperature. The leader's thermometer reading will be accepted, but the temperature estimates should be checked with the weather bureau or published temperature readings in the newspaper.
4. A Scout cannot carry degrees over to another season.
5. A Scout must spend eight continuous hours in the period between sunset and sunrise in a lean-to, snow shelter, under canvas or in the open.
6. No stoves or heaters are permitted in the tents or shelters.
7. Open fires are permitted as long as they do not constitute a hazard to the shelter or surrounding area.
8. A Scout must be accompanied at all times by leadership approved by the troop, varsity or post committee.
9. Any organized council or district campout, such as Junior Leader Training, Klondike Derby or other winter camp, may be used as long as all of the rules are followed.
10. The qualifying period for the 100° of Frost Award Emblem is September 1 through May 31st.
11. Requests for the emblem and the segments must be sent to the Council Office. The emblem will not be dated so you must order the year segment.

To obtain the award complete the following form and send to: Montana Council 820 17th Ave S Great Falls, MT 59405.

Please indicate the number of patches and segments needed.
